I should generally be around tomorrow, so feel free to try me anytime, or if it's easier to pick a time just let me know what's good for you. And happy to talk via phone, but if you have a list of the devices that you want to email, that's totally fine too.

Thanks again and talk soon.

[REDACTED],
Was in Greece last week, have to look at some notes to make an accurate response. I'll give you a call tomorrow. Any time best?

We got a significant batch of search warrant returns from you a few weeks ago, around January 13, and we expect to get access to it shortly but I don't think we know what's on it – that is, which devices specifically are in that batch. Could you please let us know?

And then separately, I just got a hard drive this past week with another set of materials – could you let us know which devices are on that one as well?

thanks very much,
