I logged into Relativity and this looks right to me. Are you guys free at 4 to discuss reviewing batches to make sure everyone is on the same page? Thanks.

Good Morning,

The tags have been created in the database under issue designation field. The batches have been created and you can check out the batches as you see fit. Please let me know if there are any questions.

Thank you.

██.

Subject: Tags for US v. Epstein Relativity Database

Hi ████,

We would like to use several tags as we conduct our review of documents in the "US v Epstein" database on Relativity. For that database, would you please help us create the below tags?

- **Reviewed**
- **Witness Statement**
- **Produce As Is**
- **Produce With Redactions**
- **Produce As Confidential**
- **Produce As Highly Confidential**
- **Work Product (Do Not Produce)**
- **Potential Brady**
- **Hot Doc**
- **For Further Review**
- **Tech Issue**

Please let me know if you have any questions or would like to discuss.

Thanks very much,

█████
