Thanks very much. Attached is a revised draft for your review. Should I plan to send this to [REDACTED] after I get back your next edits? I gave him a heads up that I was hoping to send it to him later today. Separately, I have been thinking a bit more about the documents that we are planning to attach as exhibits, and I was hoping that we could discuss as a team with you both. I was hoping to do that before I reach out to [REDACTED] to let her know our plan. I'm available for a call whenever is best for others today.

Thanks,

[REDACTED]

Really nice work on this. Some combined comments in track. Would love to see again after you've had a chance to review/clean up and, of course, happy to discuss in the interim.

Subject: Motions to Suppress

Attached is a draft of the opposition to the defense's suppression motions (motions 3 and 11), which are attached here for reference. I wrote this as one section with several subheadings since I think the issues are entangled (and that helps explain the length of this), but happy to discuss further. [REDACTED] edits are incorporated in this draft.

Thanks,
