Hi [REDACTED]

Attached is the data that needs to be added to the Maxwell hard drive copy, and then sent to [REDACTED]. Please let me know if there are any issues adding this to the drive.

Thanks so much, again – we really appreciate it!

**Subject:** RE: Hard drive copy

I apologize, [REDACTED] I did not – I was under the impression that the vendor would be sending you a physical copy. By the time the vendor emailed us the files, I'd already given the original drive to [REDACTED] to start copying to a new drive.

[REDACTED], if I send you that data, would you be able to add that to the copy as well?

Thanks,  
[REDACTED]

[REDACTED]: did you put the data that we got from the vendor on the hard drive. As it is needed for upload to Relativity.

Thank you.

Hi [REDACTED],

Thanks so much for all of your help yesterday! Whenever this Maxwell drive is copied, would you please send the copy to [REDACTED] so that he can upload it to the USvEpstein database on Relativity? I can pick up the original once it has finished copying and I'm back in the office.

Thanks again, [REDACTED] - and I hope you have a wonderful weekend!

Hi [REDACTED],

I hope you're well! We received another hard drive that is to be loaded onto Relativity. Would you please make a copy of this drive (I'll bring it down momentarily) so we can send it to [REDACTED] to upload onto the USvEpstein database on relativity? The password for the drive is: ScanningMaxwell!99

[REDACTED] asks that the drive NOT be sent out to him until we get the overlay files we need from the vendor. Once the drive is done copying, I can pick it up and keep it at my desk until the overlay files arrive from the vendor.

Thanks so much, [REDACTED]! I'll be in the office today until around 3PM, and I'll be working remotely until Tuesday morning. I'll be back in my office Tuesday.
