I added the field to the view and you should see it when you log into the database.

Thanks [REDACTED]. How can I get the filepath field to show up when I look in the database?

Hello [REDACTED],

Please make sure to use the file path field which will contain the NYC number. Please see screenshot below:

Subject: Question re Epstein Relativity Database

Hi [REDACTED],

In the "US v. Epstein (SW Returns)" I'm trying to see the NYC serial number reflecting which device a particular document came from. In the past, you helped me add a column in Relativity to show the NYC serial number for each document. Would you be able to help me with that again, please?

Thanks,

[REDACTED]
