

Some changes were made and this is the latest. Please review and provide answers to the below - thanks.

----- Forwarded message -----

- (1) Has Epstein's next of kin been notified?
- (2) Did staff initiate life-saving measures when they first found Epstein at approximately 6:30 am in his cell?
- (3) Did EMS or some sort of hospital staff come out to the institution, and if so, did they initiate life-saving measures at the institution? And did EMS drive Epstein to the hospital or did BOP drive him to the hospital?
- (4) Was Epstein pronounced dead by EMS (transporting folks) or instead hospital staff at 7:30 am at the hospital?
- (5) Was the FBI notified? Is it being investigated as a suicide?
- (6) What date did he first arrive at MCC NY on his PP37?
- (7) What are his specific offense titles for which he is indicted? I believe generally the news calls it sex trafficking, but we should be as specifically accurate based on Sentry (or the court order if we have it).
