### Tips and tricks

#### Table of Contents

Did you know you can easily add a Table of Contents to anything you create in BOP? Use the *Style* menu in the editor to select any of the *Header* styles and the header text will be added to the Table of Contents with a link to that part of the content. Then insert the *Table of Contents* from the >> menu in the editor and the Table of Contents will show up where ever you inserted it.
