hi, adrienne said she passed on my email to you.

we've been trying to track the financial side of Epstein's world for a while.

while we know your agents search his island home (little st james) on aug. 12, it's never been reported whether his business office in St Thomas, in the American Yacht Club was searched

We have talked to a merchant in the marina/office complex who said he saw federal agents enter and search the offices of Southern Trust (Epstein's business) on Aug. 12 as well.

we are trying to confirm this as it would appear to be a place the FBI would want to search for records, especially after we had a chance to review the financials for Southern Trust and Financial Trust (his earlier company)

we were also told by another merchant that two weeks before Epstein's arrest, large garbage bags of shredded papers were outside the offices of Southern Trust to be thrown out

can you confirm the search for us on Aug. 12 or if that date is error, that the office was search by your  
agents  
thanks  
matt  
here is link to our story
